2020-2021 Membership Report

In the 2020-2021 season we had a total of 560 members across 27 clubs.

316 Full Athletes
91 Recreational Athletes
33 Volunteers
36 Coaches
84 Judges
9 Club Memberships
1 PSO Membership

Considering many clubs had a difficult time securing facilities, and some could not operate at all, we still maintained good membership numbers. British Columbia and Nova Scotia remained relatively stable compared to previous years. Alberta was hit the hardest, with Ontario close behind. Hopefully we will see our memberships rebound in the 2021-2022 season. Even with COVID-19 restrictions still in place, we hope to continue promoting “virtual” events and activities to keep members engaged, even if they are unable to host in-person events regularly.

A note on membership types:

We all know that in our sport it's very common to “wear many hats” and fulfill many different duties as athletes, coaches, judges and volunteers.

Moving forward, to help with data tracking, please only select “coach” for individuals whose primary role is coaching. An athlete who supports younger athletes or instructs/coaches recreational athletes should still be considered an athlete for registration purposes. Coaches must be age 16 or older and hold full certification in order to be registered as a coach.

In the listed numbers above, “Athlete/Coaches” were counted as Athletes, and “Coach/Judges” were counted as coaches.
