

# **Rope Skipping Canada**

## **Saut à la Corde Canada**

### **First Aid / CPR Coach Requirements**

#### **Version 1.0**

*(As of: February 18, 2019)*

At minimum, one coach must be present during all RSC sanctioned Rope Skipping activities, who holds a valid Standard First Aid and CPR 'C' certification.

A higher level of certification will be accepted on a yearly case-by-case basis by the board of directors. A higher level of certification is considered a healthcare provider qualified to assess and manage medical emergencies including but not limited to a first responder, paramedic, physician or equivalent, and who is licenced in the jurisdiction of the Rope Skipping activities in question.
